

# INAUGURAL LECTURE

## Clive Sabel

**Professor of Environmental Geography**

**28 April 2017 14:00.**

**Niels Bohr Auditorium, Risø,  
Frederiksborgvej 399, 4000 Roskilde**

Clive Sabel has been appointed Professor of Environmental Geography at the Department of Environmental Science, Aarhus University, as of 1 November 2016.

Professor Sabel is a Geospatial data scientist by training. His research focuses on characterising environmental and social exposure by tracing individuals through their lives. He has been instrumental in furthering the concept of the 'Exposome' in Europe. Prof Sabel works with longitudinal 'Big Data', official government statistics and social media and applies this to long-latency health and wellbeing outcomes such as neurological disease and some cancers.

Professor Sabel completed his MSc in GIS at Edinburgh University, followed by his doctoral degree in GIS, Health and Environmental Exposure at Lancaster University, UK in 1999. He subsequently has worked in Sweden, New Zealand and the UK.

The Department would like to invite you to the inaugural lecture at 14:00 followed by a reception afterwards in the foyer.

RSVP to Christel at [cej@envs.au.dk](mailto:cej@envs.au.dk) by the latest 19 April 2017.
