

INAUGURAL LECTURE

Ole Hertel

Professor in Assessment of Human Exposure to Air Pollution

9 June 2017 at 14:00.

**Niels Bohr Auditorium, Risø,
Frederiksborgvej 399, 4000 Roskilde**

Ole Hertel has been appointed Professor in Assessment of Human Exposure to Air Pollution at the Department of Environmental Science, Aarhus University, as of 1 March 2017.

Professor Hertel carries out research into the assessment of the exposure of the population to air pollution by means of air pollution models, routine monitoring data and personal exposure monitoring, and in cooperation with health researchers determining the relationship between air pollution and health effects. His research also includes the assessment of air pollution loadings of marine and terrestrial ecosystems

Professor Hertel graduated with an MSc in Environmental Engineering from Aalborg University in 1987, he completed a dr.scient. degree at the University of Bergen in 1995, a BSc in Management at the Copenhagen University College of Engineering in 2004 as well as a DSc (higher doctoral degree) at the University of Copenhagen in 2009.

The Department would like to invite you to the inaugural lecture at 14:00 followed by a reception afterwards in the foyer.

RSVP to Christel at cej@envs.au.dk by the latest 1 June 2017.
